# Instructions

Enter your players by order of playing strength, with 1 being the strongest player, 2 the next strongest, etc. This is a fillable PDF, but if you need additional space, please feel free to duplicate it and attach it.

Completed Roster must be emailed to League Officials, [Sam Kassis](#) and [Howard Granok](#) no later than Friday, November 22, 2024.

Substitutions: Players on the B team may play on the A team if needed, but not the other way around. If a player is absent due to illness, players ranked below should move up the list accordingly for the match.

Roster changes: All proposed master roster changes should be submitted to the League Officials at least one week in advance. Switching player order is strongly discouraged once the Season begins, with the exception of illness or absence substitutions.

Designated League Officials:
